Re: Indian River County Local Hazard Mitigation Plan Approved Pending Adoption

Dear Mr. King:

This is to confirm that we have completed a State review of the Indian River County Local Mitigation Strategy (LMS) update for compliance with the federal hazard mitigation planning standards contained in 44 CFR 201/6(b)-(d). Based on our review and comments, Indian River County developed and submitted all the necessary plan revisions and our staff has reviewed and approved these revisions. We have determined that the Indian River County LMS plan is compliant with federal standards, subject to formal community adoption, for the jurisdictions below:

Indian River County, Unincorporated
City of Sebastian
City of Vero Beach
Town of Fellsmere
Town of Orchid
Town of Indian River Shores

Upon submittal of a copy of all participating jurisdictions' documentation of their adoption resolutions to our office, we will send all necessary documentation to the Federal Emergency Management Agency (FEMA) who will issue formal approval of the Indian river County LMS.

Mr. Miles Anderson

MEMORANDUM

TO: Local Mitigation Strategy Working Group Chair/Coordinator

FROM: Miles E. Anderson, Mitigation Bureau Chief
State Hazard Mitigation Officer
Florida Division of Emergency Management

RE: State approval of LMS plans under Program Administration by States (PAS)

Florida is currently operating under PAS with regard to the review and approval of Local Mitigation Strategy (LMS) plans.

Under this designation, the Florida Division of Emergency Management (FDEM) will manage the approval of LMS plans with minimal Federal Emergency Management Agency (FEMA) oversight. FEMA will continue to send final approval letters to local communities for their mitigation plans.

The process:

Plan updates should be submitted to the state for review six (6) months prior to the plan expiration date. Once received, FDEM will complete the first review of each LMS plan within 30-days of receipt whenever possible. Once the plan has been reviewed by FDEM, the county will be notified that the plan is either in need of revisions, approved pending adoption, or approved.

- **Needs Revisions:** If the plan is determined to be insufficient the FDEM Mitigation Planning Unit will provide technical assistance to the local jurisdiction until they believe that the plan adequately meets the regulations according to FEMA's standards.
- **Approved Pending Adoption (APA):** After FDEM reviewers determine that the plan adequately meets all regulations according to FEMA's standards, they will notify the local jurisdiction by email and letter that the plan is ready to be adopted.
- **Approved:** Once a plan is adopted, FDEM will notify FEMA that the LMS plan is approved and provide a copy of the adoption resolution, the final plan, and a completed Plan Review Tool. FEMA will issue a formal approval letter for FDEM to transmit to the local community.

If you have any questions or need any further information regarding this change please do not hesitate to contact your state LMS liaison.
