SCHEDULE OF WASTE GENERATION UNITS

SECTION 1. For the purpose of adopting a schedule of Waste Generation Units (WGU's) for all Assessable Property, the following Use Code classifications shall control. The general description of the use of the Properties in the following use code classifications conforms to the general description contained in the "Use Code" used by the Indian River County Property Appraiser in maintaining and classifying real property on the Indian River County real property assessment roll.

SECTION 2. The following schedule of WGU's is adopted for the Solid Waste Disposal District, "District", until changed by the District pursuant to Ordinances 87-87 and 88-32.

The basis for billing is a Waste Generation Unit (WGU) which is defined as a basic unit of waste generation equivalent to 1.0 ton per year.
