Things to Remember

- Complete all of the sections on the Retirement Benefit Options form that apply to your request.
- If this is an initial request, and not a change in a current distribution, remember to have your former employer complete the Payroll/Personnel Authorization section.
- If you are requesting a payout lasting less than 10 years (including a lump sum payout), complete the enclosed Form W-4P, only if you want an additional amount withheld over the 20% mandatory withholding.
- Enclose the completed Retirement Benefit Options form, and any other required documentation in the enclosed business reply envelope or remit to:

Authorization

I certify that I have received and read the "Special Tax Notice Regarding Plan Payments". If I elect to receive this distribution before the end of the 30-day minimum notice period, my signature on this election shall constitute a waiver of my rights to the 30-day notice requirement.

Federal income tax will be withheld from your payments as required by the Internal Revenue Code. If you select a lump sum or systematic withdrawal lasting less than 10 years, 20% of the taxable portion of the distribution paid to you will be withheld for federal income taxes. State taxes will be withheld where applicable. State and federal taxes withheld will be reported on a form 1099R. Some mutual funds may impose a short term trade fee. Please read the underlying prospectuses carefully.

The Internal Revenue Service does not require your consent to any provision of this document other than the certifications required to avoid backup withholding.

Benefit Options-The Details

Lump Sum Payments

Partial Lump Sum Payment: This option provides for a single payment in the amount requested (minimum of \$25.00) from the value of your account.

Lump Sum Payment: This option provides for the payment of the full value of your account in a single payment.

Systematic Withdrawals

Systematic Withdrawal Options: Your account is maintained on the Administrator's Accumulation System. Throughout the payout period, it continues to earn either recurrent interest in the fixed return or fund investment performance if in the variable return option. You will continue to receive quarterly statements. If your death occurs prior to the account exhaustion, your beneficiary will receive payments until the account is exhausted or a lump sum payment of the remaining account balance. All funds are withdrawn on a pro-rated basis.

Fixed Amount: This option allows you to choose a fixed payment amount (minimum of \$25.00) until your account is exhausted. You may elect to apply the Cost of Living Adjustment (COLA) to your payment amount. COLA rates are declared annually by the federal government and the rate applied to your payment will also update annually. COLA can be 0% for a given year and would not impact your payment amount in this instance. The final payment will be the balance of your account. In the year you obtain age 70 1/2, if your payment is less than the minimum amount required under federal regulations, your payment amount will be increased. Please indicate the amount to be paid, your beneficiary, their relationship, their Social Security number and their birth date. Exchanges are permitted, subject to annual exchange limitations.

For example:

Participant dies prior to the exhaustion of the account. — Beneficiary submits a claim and receives monthly payments until the account is exhausted or a lump sum payment of the remaining account balance.

Fixed Period: This option allows you to choose the number of years you will receive payments. You may elect to include an assumed growth rate equal to the Cost of Living Adjustment (COLA) or between 3-9% in the calculation. With an assumed growth rate, the growth rate is applied to your account balance when processing your initial withdrawal each year. This balance is divided by the number of years remaining on your withdrawal to determine your withdrawal amount for the current calendar year. You may also elect the frequency at which your payments are recalculated – annually or per payment. If you select an assumed growth rate the recalculation frequency must be annually. Your payment may fluctuate if some or all of your money is invested in the Variable Accounts or Mutual Fund Options. Please indicate the amount to be paid, your beneficiary, their relationship to you, their Social Security number and their birth date. Exchanges are permitted, subject to annual exchange limitations.

For example:

Participant dies prior to the exhaustion of the account. — Upon their claim, the beneficiary receives monthly payments until the account is exhausted or a lump sum payment of the remaining account balance.

Single Life Expectancy: This option provides payments to last through your calculated life expectancy at the time the payments are initiated. The number of payments is not recalculated after the payments are initiated. The payment amount is recalculated annually. Your payment may fluctuate if some or all of your money is invested in the Variable Accounts or Mutual Fund Options. Please indicate your beneficiary, their relationship to you, their Social Security number and their birth date. Exchanges are permitted, subject to annual exchange limitations.

For example:

Participant's current age is 65 and life expectancy is 89. Payments will be calculated to last 24 years.

Joint Life Expectancy: This option provides payments to last through your and your beneficiary's calculated life expectancy at the time the payments are initiated. The number of payments is not recalculated after the payments are initiated. The payment amount is recalculated annually. Your payment may fluctuate if some or all of your money is invested in the Variable Accounts or Mutual Fund Options. Please indicate your beneficiary's date of birth, their relationship to you, and their Social Security number. Exchanges are permitted, subject to annual exchange limitations.

For example:

Participant's current age is 65 and beneficiary's age is 59. Participant's life expectancy is 89 and beneficiary's life expectancy is 90. Payments will be calculated to last 31 years

Single Lifetime: This option provides payments to last through your calculated life expectancy at the time the payments are initiated. The payment amount and number of payments is recalculated annually based on updated life expectancy tables. Your payment may fluctuate if some or all of your money is invested in the Variable Accounts or Mutual Fund Options. Please indicate your beneficiary, their relationship to you, their Social Security number and their birth date. Exchanges are permitted, subject to annual exchange limitations.

For example:

Participant's current age is 65 and life expectancy is 89. Payments will be calculated to last 24 years. Five years later, the life expectancy of the participant is changed to 91. Payments will be recalculated to last an additional 2 years.

Benefit Options -The Details (continued)

Systematic Withdrawals (continued)

Joint Lifetime: This option provides payments to last through your and your beneficiary's calculated life expectancy at the time the payments are initiated. The payment amount and number of payments is recalculated annually based on updated life expectancy tables. Your payment may fluctuate if some or all of your money is invested in the Variable Accounts or Mutual Fund Options. Please indicate your beneficiary's date of birth, their relationship to you, and their Social Security number. Exchanges are permitted, subject to annual exchange limitations.

For example:

Participant's current age is 65 and beneficiary's age is 59. Participant's life expectancy is 89 and beneficiary's life expectancy is 90. Payments will be calculated to last 31 years. Five years later, the life expectancy of the participant is changed to 91 and the life expectancy of the beneficiary is changed to 92. Payments will be recalculated to last an additional 2 years.

Required Minimum Distribution

Required Minimum Distribution: A minimum distribution of your account is required to begin when you attain age 70 1/2, unless you are still working. This payment option will only pay the minimum that is required to be paid to you each year. The amount that is required to be distributed will be calculated for each distribution year in accordance with proposed regulations under Section 401(a)(9) of the Internal Revenue Code. The Required Minimum Distribution (RMD) will usually be different for each year because of the changes in your account balance and the change in your life expectancy. This payment option is not available unless you have attained age 70 1/2 and cannot be rolled over to another eligible retirement plan or IRA. Please indicate the amount to be paid (a minimum of \$25.00), your beneficiary, their relationship, their Social Security number and their birth date.

For example:

Annuitant dies prior to the exhaustion of the account.
Beneficiary receives monthly payments until the account is exhausted or a lump sum payment of the remaining account balance.

Purchased Annuity Options

Purchased Annuity Options: Your account is removed from the Administrator's Accumulation System and your account balance is used to purchase an annuity contract that you select. Purchase rates are subject to change monthly. However, once you have purchased an annuity, the benefit amount will remain the same for the life of the annuity (except for variable annuities). You will receive an annuity certificate stating the terms of the contract. You will no longer receive quarterly statements. (Not all plans have this option available. Please call customer service at 1-877-677-3678 to confirm availability.)

Single Life Annuity: This option provides equal payments over your lifetime. At the participant's death, payments will stop. There is no named beneficiary. Attach proof of date of birth.

For example:

Annuitant dies after two payments are made - no death benefit payable.

Life Income with Payments Certain: This option provides payments for your lifetime. If you die before the selected number of guaranteed payments has been made, payments will continue to your named beneficiary until the total number of guaranteed payments (5, 10, 15, 20, 25, or 30 years) has been made to you and your beneficiary. If you die after the guaranteed number of payments has been made, no death benefit is payable. Please select a guaranteed period and indicate your beneficiary, their relationship, their Social Security number, their birth date, and attach proof of date of birth.

For example:

20 Years Certain – Annuitant dies in the 5th year.
— Beneficiary receives 15 years of monthly payments or an adjusted lump sum payment.

Joint & Survivor: This option provides payments for you and your survivor for your lifetimes. Upon your death, payments will continue to survivor, if he or she is living. No other beneficiaries are permitted under this option. Payments to the survivor may be a percentage (50%, 66 2/3%, 75% 100%) of the original amount. Please name your survivor, their relationship, their Social Security Number and their date of birth on the lines provided and attach proof of date of birth for both you and your survivor.

For example:

Annuitant dies and survivor is still living.
Survivor receives the monthly benefit for as long as they live at 50%, 66 2/3%, 75%, or 100% of the original amount. Annuitant dies and survivor is also deceased.

Fixed Designated Period: This option provides for payments for the number of years chosen. You may select any whole number of years between 3 and 20, inclusive. If you should die before the end of the period, payments will continue to the beneficiary. Please indicate the number of years to be paid and indicate your beneficiary, their relationship, their Social Security number and their birth date.

For example:

Annuitant dies prior to the end of the designated number of years.
Beneficiary receives payments to the end of the designated period or an adjusted lump sum payment.

Designated Amount: This option provides for payments of a specified dollar amount, not less than \$25.00. The length of the payout is determined by the account value and a set purchase rate. If you should die before the annuity is exhausted, your beneficiary could either continue the payout or receive the remaining lump sum.

For example:

Annuitant dies before all annuity payments are received. Beneficiary receives payments to end of annuity amount or adjusted lump sum.
